About Me

Frontend Developer with **6 years** of experience specialising in Mobile development using **React-Native**. Proficient in **React, Javascript**. Eager to lead technical excellence and creativity to a dynamic development team.

Professional Experience

Senior Frontend Developer

March 2024 - Current

Jisr (Remote, Canada)

- Led the frontend development and integration of in-house **AI chatbot** built with **React-Native** and **Websockets**, reaching **20k users** within a month.
- Built an **In-App development tool** for mobile, letting non-technical teams easily access logs and switch environments without new builds. This **streamlined testing, boosted collaboration** and **reduced developer involvement**.
- Integrated **Bitrise** (CI/CD platform) to fully **automate** our mobile app releases to both the **IOS App Store** and **Google Play Store**. This also automated test build creation, which was previously manual, **saving significant developer time by 30 mins** per build.
- Implemented **Biometric authentication** for app access, now securing over **80,000 users**.
- **Revamped** the app's home screen UI to **optimize user engagement** and **visual consistency** which increased **user retention by 40%**.
- Led an initiative to **reduce homepage API calls**, significantly **decreasing backend load** and **preventing downtime**.

Frontend Engineer

September 2021 - March 2024

Razorpay (Bangalore, India)

- Developed a React Native **Payment Gateway mobile app** for merchants to track payments and gain insights. Key features included a mobile-specific login flow that **boosted conversion by 90%**, account updating, and payment link sharing.
- Wrote extensive **Jest** test cases in React Native applications, drastically **increasing unit test coverage** to over **90%**.
- Significantly improved app **load time by 2.5 sec**, enhancing user experience.
- Collaborated in **code reviews**, providing constructive feedback to enhance code quality.

Software Engineer

March 2019 - September 2021

GeekyAnts (Bangalore, India)

- Built a React-Native **Design system library**, tailored to our company's needs, that **reduced development time by 30%**. This system is now **used by over 40 Mobile developers, streamlining UI creation**.
- Refactored the entire IOS UI of an eSports gaming app (**80k daily users**) for its international launch. improved the app's **crash-free percentage to 99%**.

Skills

- **React-Native, TypeScript, Javascript**
- **ReactJS, HTML/CSS, Redux, Git, Github**
- **Jest, React Testing Library, E2E testing**
- **VS Code, Github Copilot, Cursor, Xcode, Android Studio**
- **Bitrise, Google Play Store, App Store, App Center**
- **Figma, Slack, Jira, Sentry, Datadog, SonarQube**
- **Tailwind CSS, Material UI, Design System**
- **GraphQL, Firebase, REST APIs, WebSockets, React Query**
- **Debugging, Code Review, Technical planning**

Projects

JISR App

[IOS App Store](#) [Google Play Store](#)

React-Native, React Query, Jest, Websocket, Redux, Typescript

Razorpay Payments App

[IOS App Store](#) [Google Play Store](#)

React-Native, GraphQL, Typescript, React Testing Library, E2E testing

MPL: Gaming App

[IOS App Store](#) [Android App Link](#)

React-Native, Redux, Firebase, Design System

Education

Information Technology (Master of science) 2021

Lovely Professional University - Distance Mode
Graduated with 7.2 CGPA (**Top 10%**)

Computer Sciences & Engineering (B. Tech) 2016

Chitkara University
Graduated with 9.6 CGPA (**Top 5%**)

Tech Talk

React Native Bangalore

October 2020

[YouTube Link](#)

Topic :- **Bridging between React-Native and Swift**

Presented on creating and integrating Swift native modules in React Native using the bridge.

Awards

Spot Award (Razorpay)

December 2021

[Certificate Link](#)

For onboarding quickly and contributing to login feature and increasing unit testing coverage in the first 2 months of joining.
